CENTURION
SPALDING

SPALDING PRESENTS ELITE CENTURION

The culmination of nearly 100 years of club making, these are, quite frankly, the finest golfing instruments ever created by the most experienced club makers in the game—Spalding.

Elite Centurion brings together performance-proven club characteristics, the most modern design and production technologies, and the distinct mark of craftsmanship at its best.

Confidence in play. Pride in appearance. Simply stated, these are the most playable clubs the game has ever produced.

WOODS

- Designed for, and proven in play by Spalding's Touring Professional Advisory staff
- The medium-deep faced driver delivers consistently straighter hits
- Shallow faced fairway woods for greater playability even from difficult lies
- Unique brass backweight to provide a more ideal concentration of mass behind the ball at impact
- Precision swing weighted
- Precision total weighted
- Dynamic steel shaft

IRONS

- Investment cast with a playability-proven, lower concentration of mass
- Blade slightly offset to encourage proper hands-ahead action at impact
- Radiused and cambered sole to reduce turf drag
- Short hosel allows additional mass to be placed more effectively in the blade
- Tapered brass ferrule smooths transition from shaft to hosel
- Dynamic steel shafts

SPALDING TOP-FLITE

The Top-Flite for 1975 features three point Dy-Nertial weighting. A low centre of gravity is combined with heel and toe weighting to create the biggest sweet spot ever—in both irons and woods. With Top-Flite, you get away with hits not only toward the heel or toe, but also with some of those "thin" hits thanks to the lower centre of gravity. Top-Flite's Dy-Nertial weighting surrounds the ball with balanced weight at impact, providing longer flight and more ball control.

WOODS

- Laminated wood block for greater strength and durability finished in black for M.R.H. and Royal Burgundy for W.R.H.
- Three point Dy-Nertial weighting in heel, toe and sole
- Oversized burgundy face insert for larger, more uniform hitting area
- Dynamic steel shafts
- Rich looking rubber grips

IRONS

- Three point Dy-Nertial weighting in heel, toe and sole
- Perma-finished tempered steel heads, chrome plated and hand polished
- Square toe to aid ball alignment
- Dynamic steel shafts
- Rich looking rubber grips

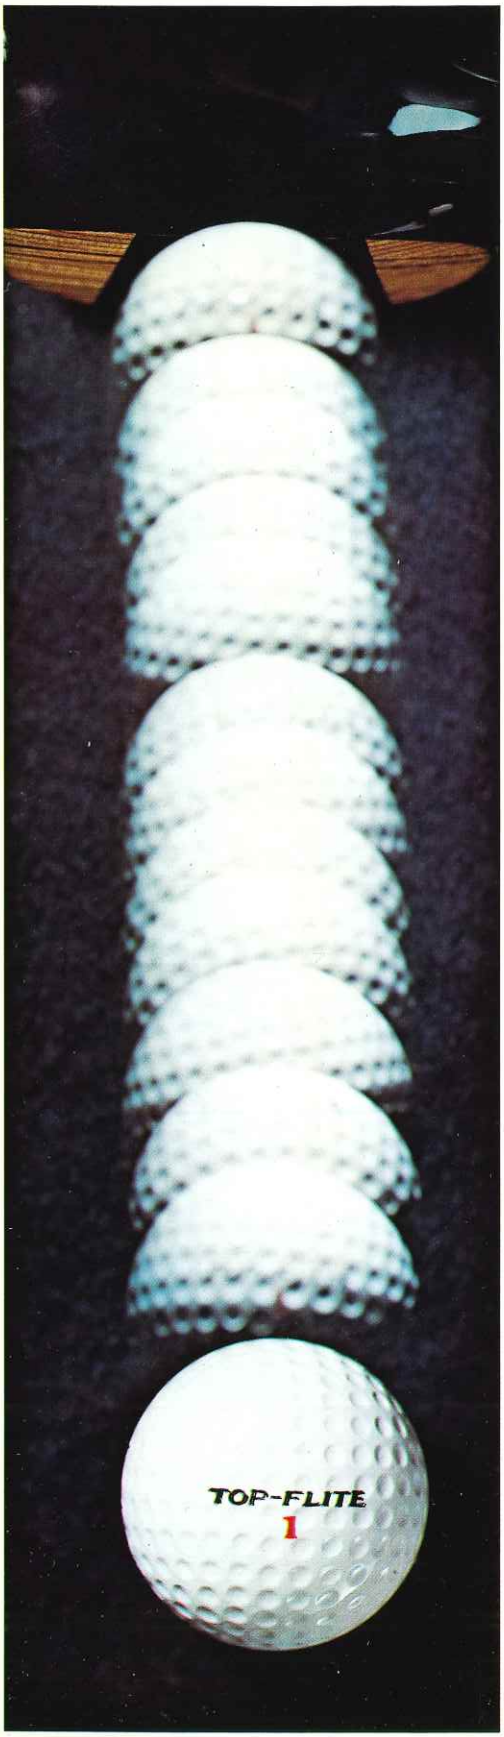
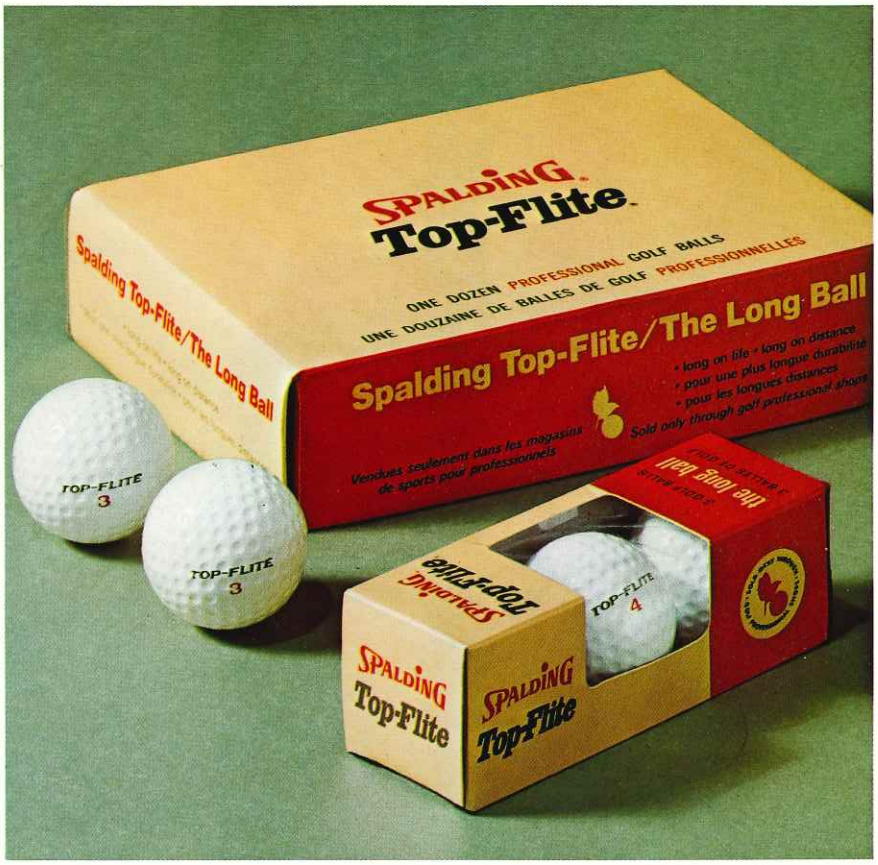
H—Bandit #01—Two-way

I—Bandit #12—M.R.H. "tunnel" design

SPALDING GOLF BALLS



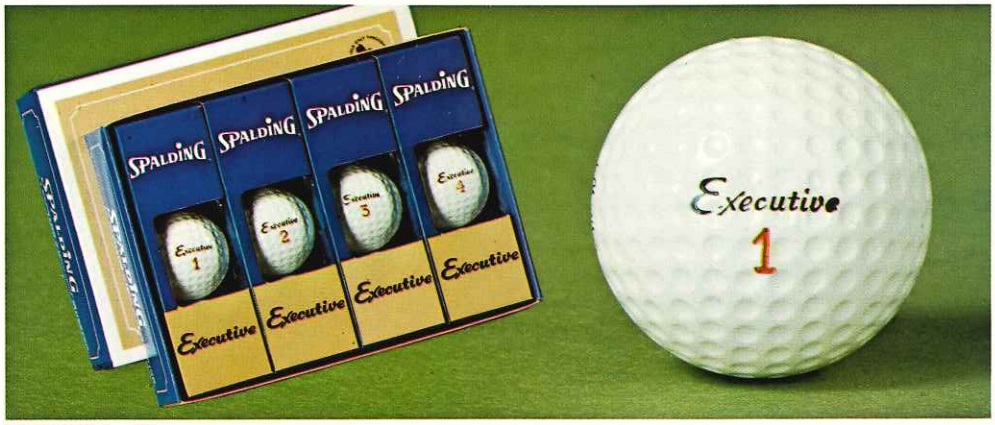


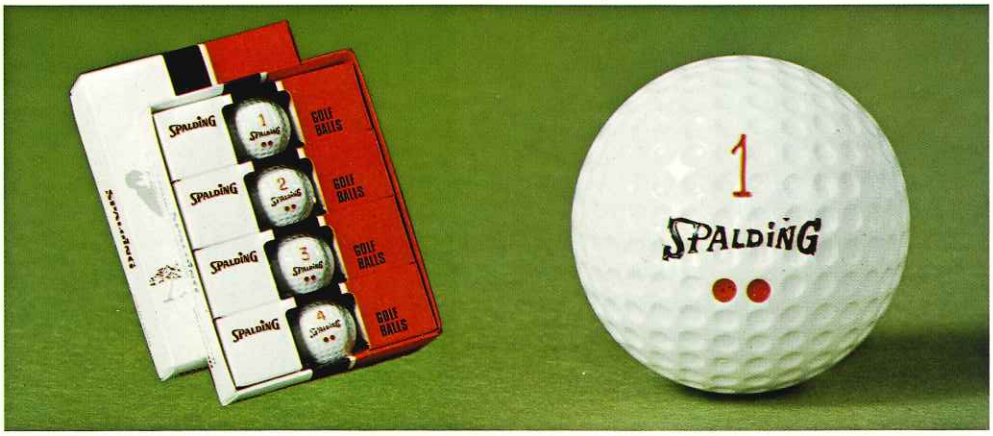
SPALDING TOP-FLITE

Absolutely the longest
Absolutely the toughest

As if being the longest ball weren't enough! Top-Flite is also the most durable ball you can play. Another independently conducted test bears it out. In the durability test, Top-Flite outlasted them all again. By at least twice as many hits!

Once again, the reason is Top-Flite's unique construction. The Top-Flite cover is super tough Gyrolon™, an exclusive Spalding blend of Dupont Surlyn®. Other balls just can't take the beating Top-Flite can. Which means golf's longest ball is also its toughest. Spalding Top-Flite.





SPALDING EXECUTIVE

Tops in value—Low and high handicappers by the score have already made the switch. Extraordinary two-piece high velocity, extra distance professional golf ball with super-resilient distance core and virtually indestructible cover. Delivers a combination of distance, durability, authentic click and feel unmatched by any other golf ball in the medium-priced field. The Executive—in a class by itself.

SPALDING DOUBLE RED DOT

A consistent choice of winners, the Double Red Dot is synonymous with top performance. With each stroke, the Double Red Dot delivers the satisfying click and feel all golfers want. It is so precisely constructed and pre-tested that it delivers outstanding accuracy—green after green.

SPALDING STARFLITE

The unique two-piece construction centre has been carried down to this economically priced ball so that everyone can enjoy the pleasure of playing a ball that is virtually indestructible. Bulk packed—6 dozen to a carton.

SPALDING RANGE BALLS

Spalding Range I (two red stripes) and Range II (one red stripe) golf balls. Reasonably priced—yet offering all the durability needed for their special purpose.
